

## CERAMIC INFRARED HEATER ECZ

The ECX and ECZ infrared radiators are the ceramic emitters of heating radiation, within the range of infrared waves, constructed in the form of a bulb with the E-27 thread shank. The radiators may be installed only in E-27 ceramic bulb fittings.

| power [W]              | 75  | 150 | 250 |
|------------------------|-----|-----|-----|
| Av. Surface temp. [°C] | 330 | 460 | 560 |
